

# Zolfo Ventilato

**EC FERTILIZER – Elemental sulphur (S)**

**Zolfo Ventilato** is a fertilizer based on elemental Sulphur for dry treatments.

It corrects Sulphur-deficiencies, typical of very vigorous plants and leached soils, improves ammoniacal Nitrogen absorption, stimulating the synthesis of proteins and vegetal parts containing Sulphur.

Thanks to its purity and formulation finesse, **Zolfo Ventilato** allows an even and optimal distribution.

**WARNING**  
**H-PHRASES:**  
H315

## COMPOSITION

Total Sulphur trioxide (SO<sub>3</sub>)

245%

## APPLICATION RATES

### CROPS

Stone fruits, Pome fruits, Olive trees, Grape, Actinidia, Strawberry, Hazelnut, Vegetables, Flowers, Ornamentals, Cereals and Sugar beets

### SOIL RATE

200-400 g/10 m<sup>2</sup>

### FOLIAR RATE

200-400 g/100 m<sup>2</sup>

## PACKAGE

Bag 20x1 kg

Bag 4x5 kg

Bag 20 kg
